

EWA 50 // PowerDrive 50–150 Nm

- Extremely quiet, self-locking double worm gear unit with integrated limit switch control and with long service life, zero maintenance.
- Universal assembly with standard mounting at back or on side left (symmetrical).
- Standard mounting with 70 mm center distance brackets or optional 60 mm.
- Limit switch control, including auxiliary limit switch, via control unit LSC 40 AC/DC. Optional mechanical limit switch END 20 for up to 580 shaft rotations.
- High quality motors available in a wide variety of voltages.
- Pre-wired single phase motors supplied with power cord and thermal overload protection.
- Ambient temperature -5°C to $+60^{\circ}\text{C}$, A60 version for low temperature applications below -5°C .
- Protection class IP55.
- Duty Cycle S3-40 %.
- Interchangeable with EWA 10/12.

Options when using LSC 40.10:

- Position repeater LPR 02 for analog signal 0 – 10V or 4 – 20 mA, LPR 04 for digital signal (incremental).

Options when using END 20:

- Auxiliary limit switch END 20.40
- Position repeater PAR 06 (potentiometer) or PAR 10 (0 – 10V).
